

# *You Don't Have to Give Up the **HOME** You Love*

Inside this brochure, you will find information straight from Kendal at Home members about how Kendal at Home's unique aging in place program has helped them live their best lives.

I intend to keep on doing art, I intend to keep on experimenting...Kendal has been a triggering mechanism for a great advance forward in my work.

—*Ruth*

"I liked the philosophy that they had. I liked the fact that they would provide me with what I needed, and not more than I needed. I believe that it's a wonderful idea. As our population ages, I think there are a lot of people out there who are healthy enough to stay in their own homes, and it's an option that was never offered before. I think it's something that's really going to grow, as the aging population increases."

—*Shirlie*

I wasn't afraid to be in Florida for 4 to 5 months, because I know if I needed help I could get it through Kendal at Home.

—*Mary Lou*

"When we first were becoming members of Kendal at Home, our answer to the question "why?" was: For peace of mind. Now, after a few years in, it still is! But now that answer is enhanced by our having experienced the support of the caring, well-trained, well-informed, and knowledgeable Kendal at Home staff as we face future years when our needs will inevitably change. We have also come to know the quiet comradeship of our companions in this life journey as many of our fellow members have become our good friends."

—*Beverly & Judith*

Planning for my future was very important for me because I don't have family in this area, number one. For someone in my family to take responsibility for making decisions, finding help... they wouldn't even know where to start because they are not here.

—*Francine*

“It’s sort of like a family... Our children are a long way away and to have a Kendal at Home family that we know and care about and feel cared about makes all the difference.”

—*Marlene*

“We wanted to find a solution without burdening our children. Our solution is Kendal at Home. Our sons are certain that Kendal at Home is the best option for us.”

—*Nancy*

“We have a nice home, we like where we live, we like the location, we like our access to all of the things that we like in Cleveland. We’re 10 minutes from the art museum, we’re 10 minutes from the symphony, we’re close to shopping, everything that we like, and we have our home. We’ve lived here, we’ve been in the house for 28 years. We prefer this atmosphere as opposed to a retirement community.”

—*Frank Martines*

“I do feel that I have a support group behind me. I felt a peace of mind when I got into the program. Whew! Now that’s taken care of, I can move forward on to something else.”

—*Erma*

*Start preparing for a future on your terms now.*

Join us for an informational seminar where you’ll learn more about our program or sign up for an in-home consultation.
